Education

The LNM Institute of Information Technology, Jaipur 2024 – Present

B.Tech - Communication & Computer Engineering CGPA: 8.3

Skills

Languages: JavaScript, TypeScript, Python, Java, C/C++
Frontend: React, Next.js, Tailwind CSS
Database: PostgreSQL, MySQL, MongoDB
Cloud: AWS (EC2, S3, CDN, Load Balancers)
Technologies: Docker, Redis, Kafka, WebRTC, WebSockets, CI/CD

Work Experience

Web Developer Intern June 2025 - July 2025

Flexzistay Pvt. Ltd. *Remote*

- Developed a **manager portal** for hotels to handle bookings, revenue, offers, and guest support.
- Implemented responsive, SEO-friendly UI/UX designs using **Next.js**.
- Implemented **IP-based rate limiting** on key routes and developed middleware to restrict upload sizes for different hotel assets.
- Integrated **Cloudinary** for secure file uploads with expiration for private documents.

Projects

DeployJS *GitHub*

React, Node, PostgreSQL, ECS, S3, Kafka, ClickHouse

- Developed a modular platform to deploy **React** applications from GitHub repositories.
- Built a **containerized** build pipeline on AWS ECS for **isolated** production builds.
- Implemented a Kafka-based **log pipeline**, storing logs in ClickHouse with a **polling-based** retrieval.
- Designed S3-based hosting with a **reverse proxy** for dynamic request routing.

Flow *GitHub*

Next.js, Tailwind CSS, tRPC, PostgreSQL, Inngest

- Built a **workflow automation** platform to design and execute custom event-driven automations.
- Implemented secure user **authentication** and authorization using Better Auth, enabling email/password and **social logins** with **session-based** route protection.
- Integrated Inngest event-driven workflows to trigger **asynchronous automation** and process **webhook-driven job** execution.
- Developed a interactive editor with React Flow with real-time state handling, and end-to-end type safety across client/server boundaries.

Achievements

- Winner at **Hackcrux: Build with AI**, organized by **Google Developer Group** on Campus.
- Solved 250+ problems on **Codeforces**, strengthening problem-solving skills.
